FROM LEARNING TO LEADING

A 3 MONTH YOGA MENTORSHIP

A warm and supportive journey for new yoga teachers to grow their confidence, refine their teaching and step into leadership.

This mentorship exists because of you. Many new teachers complete their 200 hr YTT feeling inspired yet unsure of how to begin teaching with confidence.

This mentorship bridges the gap between training and teaching, providing real practice, reflection and guidance. You'll grow your skills, deepen your understanding of teaching and find your authentic teaching voice.

Ready to step into your teaching journey?

Join me for three months of mentorship designed to help you teach with confidence, purpose and authenticity, and become a leader.

MEET YOUR MENTOR

With nearly a decade of teaching experience and over 600 hours of training, I offer a broad and inclusive approach to yoga and personal development. My teaching spans Yin, Hatha, Vinyasa and 26&2 (Bikram) yoga, rooted in the belief that there is a practice for every body, every season, and every stage of life. For me, the style itself is secondary to the deeper purpose of the practice: awareness, connection and understanding.

Alongside teaching yoga, I am a certified coaching professional (ILM Level 7), supporting individuals - particularly yoga teachers- who want to explore their values, purpose and direction with greater clarity and integrity.

I work with a wide range of people, from high performing 'type A' personalities to those simply seeking more space, steadiness and peace of mind. My approach is calm, honest and grounded in both lived experience and the life science of yoga philosophy. As an experienced registered yoga teacher with YogaPros (Yoga Alliance Professionals), I teach regular classes, workshops, retreats and mentorship spaces designed to help people explore their practice in a supportive and welcoming way.
